

The Harnham Way: Our Curriculum  
Harnham Infant School  
2021-2022

**Topics/Trips/Visits and Experiences:**

At Harnham Infant School we believe in creating a challenging and fun learning environment whilst also acknowledging there are occasions when a calm and reflective atmosphere is required to deepen learning. We have high expectations of everyone in our school - both children and adults. We foster an ethos whereby all children develop a willingness to have a go and show resilience when they feel challenged. We expect everyone at Harnham Infant School to treat each other with respect; British Values are implicit in what we do. The teachers plan topics to captivate the children's interests and inspire them to find out more for themselves. The programme of study for the Early Years Foundation Stage Curriculum in Reception and the National Curriculum in Year 1 and Year 2 are incorporated into a termly topic alongside a strong emphasis on learning skills. There are times during the term when subjects are taught as part of the topic and times when subjects are taught discretely. It is important our children learn basic skills across the curriculum to provide a firm foundation to their learning. There is a strong emphasis on our curriculum being practical, stimulating and interactive, so regular opportunities for visits and visitors are provided to extend the curriculum.

	<b>EYFS</b>	<b>Year 1</b>	<b>Year 2</b>
